laying within a body without
a mind, a soul, a will, a doubt
no searching, no seeing, no finding, no being
feelings once felt, a distant dream

kept within a place unknown
bred for blood, you're not your own
injected pain your only sense
physical reactions, their science

sadistic knowlede, now furthered for
the good of man, god must deplore

listless life, unknown self
experimental malediction
desired truth they now find
authorized atrocity of mankind
viral, exogence, neomortality, the cardinal sin

diseased, inflamed, carcinogenated
bloated, burning, inundated
decrepit, rotting, degenerated
of living death you've created
syringe prepared to carry forth
the heinous cravings of the cause
trained in medicine to aid the weak
instead their minds diabolically reap

sadistic knowledge, now furthered for
the good of man, god mjust deplore

signed away, your soul remains
transcending venture, incarcerate
embodied spirit purgatorized
confined in you, anatomical cage

molecules so arranged
pristine structure grossly changed
life support, maintained
to feed the seething, breeding hate

laying within a body without

a mind, a soul, a will, a doubt
no searching, no seeing, no finding, no being
feelings once felt, a distant dream
