Join us, in this midnight black mass  
Sorceress chant the incantations  
Spilling blood of the virgin sinstress  
Under the sacred moonlight

Altar priestess performs Satanic spells  
Ceremonial blasphemous trance  
Praising the goat, the lord Lucifer  
With blackened debaucherous chants

Satanic witches fornicate and writhe  
In ecstasy like serpents  
Whilst choirs of obscenities intensify  
A chalice of blood is drank  
Sadistic orgies rage on untill dawn  
The black candles burning  
The sanctuary of divine evil  
The rites of the Antichrist complete

Stained black hearts possessed  
Powers of Satan unite  
Baphomet's Disciples, ritual magick  
Madness, angels of chaos

Inverted crosses adorn the heads of the insane  
Chapel of Insidious Pain  
Repent unto your Baphomet
