Coven-cult witches gather before me
Chanting forth Antichristian blasphemy
Cursing with blackened vomiting
Copulate demoness in ritualised orgy
Thy succubus fucks in fevered fires
Planting seeds of serpentine desires
Burning lusts in thy mortal coil
Enchantress forever debaucherous
Transcendence of the Black Angels

Come forth and possess thee
The Realms of Forbidden Knowledge
Unleashed with rabid fury

Invocation of Black Magick Rites
Angels of Destruction ascend in the night
The abyssic witches conjure immortal death and
destruction
Put them all to rest.....
