Crushing & thrashing, all around bashing
Setting time-bombs on the ground
Pounding, grounding - war heads sounding
The mighty Juggernaut arriving to town
Foul sights dreaming, horrified screaming
Bombastic sounds to this venomous bloodhound
Light?s out - bring ?em your dead
The mighty Juggernaut arriving to town

Through the fire and the flames
Living death through history
Riding high where the fire still burns
An army made of steel
Running through the maze
December now, it?s colder days
Living high where the sunset turns
Where the Juggernaut earns

Plain sheer terror, computerized, no error
Shooting missiles with an infinite range
Ghost invader, looks like from the 80-ties
Fucked up creature with a violent way
