"The Killer Come"

Its been a long time since rock n roll
Its been a long time since the Rolling Stones
Come hear that rock n roll guitar screaming wild on the
radio
Lord Almighty, feel my temperature rising
Tupelo, Mississippi where the king was born
Come hear some boogie woogie rolling out over the
piano

[Chorus:]

Im one, Im two and the killer come
(I wanna do what aint been done)
Watch them last rays of the sun
These sleepy eyes have seen it all
Ill set my sails...
Ill watch the dawn, when light is shun
Take that last life with this gun
How man has failed...

Its been a long time since the New Orleans
Way back up on the woods among the evergreens
We heard some riffing going wild, screaming out on
the
radio
And in the 70-ties we sold our souls
The later years were just craving for more
Them devil tunes are playing high all over the stereo
