You couldn't be, you couldn't be me even if you  
wanted to,  
Everything I've been through.  
Live your life, soaking up all my sunshine,  
And smile your whole life,  
I wouldn't know

18 wheels are rolling,  
18 wheels are crushing,  
Me down,  
Running me down  
Cars are crashing  
Cars are crashin, all around me  
Running me down,

All my days are numbered,  
All my days are grey,  
All my skies are covered,  
All my ends are frayed,

You couldn't be, you couldn't be me even if you  
wanted to,  
Everything I've been through. You wouldn't know  
Live your life, soaking up all my sunshine,  
And smile your whole life,  
I wouldn't know

Lightning's crashin?  
Thunder's rolling all around me,  
Lyrics  
Bringin me down  
Stars are falling,  
Fires lighting all around me,  
Burning me down

All my days are numbered,  
All my days are grey,  
All my skies are covered,  
All my ends are frayed,

You couldn't be, you couldn't be me even if you

wanted to,  
Everything I've been through. You wouldn't know  
Live your life, soaking up all my sunshine,  
And smile your whole life,  
I wouldn't know

Feels like I'm falling down,  
Inside a fever rising,  
Buried my life deep in the ground,  
Left my existence lying, so lets go

You couldn't be, you couldn't be me even if you  
wanted to,  
Everything I've been through.  
Live your life, soaking up all my sunshine,  
And smile your whole life,  
I wouldn't know
