The way you move, the way you move me,
Makes me feel alive
The way you look, the way you look at me,
Sends chills up my spine

I found my star, lost the moon,
That star is you.

Love the way you love me, You love me
Love the way you do me, just like you do

The way you touch, the way you touch me
Makes me feel alive.
The way you melt me, the way we melt together,
Melt into my eyes

I found my star, lost the moon,

That star is you, shining through
I love the way you love me, You love me
Love the way you do me, just like you do

My angel, my anchor, my star...

I found my star, lost the moon
That star is you, shining through
I found my star, you love me.
That star is you, shining through
I found my star, that star is you,
I found my star, shining through
You're my star...
