Spread you mind the fish feed  
Don't ignore my speech my  
Heart blees  
Make yourself the perfect butt  
Some passing thought, I don't know what  
Don't remind me, I'll fake  
What I need to  
Get back in case the door swings and  
Don't forget to hide

Your mood rings  
Fit to tie  
I thought I knew good company  
I'd like to be you  
You're right behind me and  
Mouth all I read  
Don't remind me, I'll fake  
What I need  
You're right behind me and  
Mouth all I read
