Nobody was paying attention  
Man, you had the world on the run  
Everybody jump, everybody swoon  
Everyone was whistling your tune

Now you're dying to make it last  
But karma's burning fast

Blinded by the fireworks  
Hanging on your every word  
Could not resist, did you feel like Jesus?  
Gone too far, now you are religious

Are you tired? Are you sick?  
Karma's burning quick  
Now you're dying to make it last  
Karma's burning fast, shit

Are you tired? Are you sick?  
Karma's burning quick  
Now you're dying, turn it around  
But karma's taking you down, you down  
Yeah, karma's taking you down
