Just kicked all my vices  
In time for her next crisis  
Shit's crashing around us  
No use pretending we trust

She's better, no wonder  
Every day gets longer  
You push, I shove  
Just like we were in love

Take all, take all my money

Forgive, forget  
But she ain't done yet  
It's a total disaster  
Tripped up trying to slip past her

Take all, take all my money  
Get lost, so long now, honey

It's no better  
It's no better now

It's no better, no wonder  
This fucking life gets longer  
You push, I shove  
Just like we were in love

Take all, take all my money  
Get lost, so long now, honey  
Take all, take all my money  
Get lost, so long now, honey
