Out Of Africa

Listen to the rhythm of the distant drums - Africa,  
Africa

Antilopes are running when the lion comes - Africa,  
Africa

Mountains rising high above the raging sea - Africa,  
Africa

Life is never certain but the souls are free in Africa

Oh, out of Africa come the sweetest peace and the  
toughest fights

Oh, out of Africa comes the heartbeat of the world, out  
of Africa

Listen to the howling of a desert storm - Africa, Africa  
Look at all the stars on a night so warm - Africa, Africa  
Crickets say hello when the evening comes - Africa,  
Africa

Listen to the rhythm of the distant drums out of Africa

Oh, out of Africa come the sweetest peace and the  
toughest fights

Oh, out of Africa comes the heartbeat of the world  
Out of Africa

Oh, out of Africa come the sweetest peace and the  
toughest fights

Oh, out of Africa comes the heartbeat of the world  
Out of Africa  
Out of Africa
