(Dan Messe)

Me I imagine places  
That I have never seen  
The colored lights in fountains,  
Blue and green

And I imagine places  
That I will never go  
Behind these clouds that hang here,  
Dark and low

But it's there when I'm holding you  
It's there when I am sleeping too  
It's there when there is nothing left of me  
It's hanging just beyond  
The burned out factory  
Out of reach but leading me  
Into the beautiful sea

And I remember something  
It feels a lot like fear  
Some kid is wild and shouting  
Coast is clear

And it's there when I'm holding you  
It's there when I am sleeping too  
It's there when there is nothing left of me  
It's hanging just beyond  
The burned out factory  
Out of reach but leading me
