My sun is set--and my day is done  
When I turn to the east I can see no dawn  
But iron horse come--buffalo gone  
Like blades of grass they cut us all down  
Yes I know what it is to be free  
To run as far as the eye can see  
But long knife come--buffalo gone  
Like blades of grass they cut us all down  
Why in the world are you so cruel?  
Here is a girl who's working in a factory  
Spends all her time there thinking what she want to be  
She got no boyfriend--she got no window  
She just a lonely heart--it's tearing me apart  
There's a boy now doesn't have a word to say  
Cat got your tongue now--night to night and day to day  
He got no girlfriend--he got no money  
He just a lonely heart--it's tearing me apart  
Why in the world are you so cruel?  
Everywhere I go there's a world full of heartbreak  
Hole in the sky now--tell me where for God's sake  
Where is that sunshine? Where is that rainbow?  
Who got an answer here? Tell me what I want to know  
Nobody knows the trouble I see  
Nobody cares--nobody but me  
And James Bond, Jackie O, Johnnie Ray and Garbo  
Who got an answer here? Tell me what I want to know
