"Holiday N Heaven"

Visit "[Holiday N Heaven](#)" on MotoLyrics.com

I shuffle down past the Third Street Gospel Mission
Jesus always saves a place there just for me
He's got his own band of angels playin' music
From a block away you can hear 'em sing
To a kick drum and a tamborine
Corner of Holiday and Heaven
No place on Earth I'd rather be
Goin' down to let my light shine thru a lonely window
A chance a lost soul will face up to the pain
I like the preachin'.... that little dance he does
So entertainin'
Seems to know just how to save my soul
Take my burdens, make me whole
Right there on Holiday and Heaven
No place on Earth I'd rather be
Now from the outside looks like
Just another lonely place
On just another hard road down town
Where the wind blows the trash around
In circles on dirty streets
But the joy of the Lord's is found
Where the heart of the new believers beat
Corner of Holiday and Heaven
No place on Earth I'd rather be
Right there on Holiday and Heaven
No place on Earth I'd rather be
