Said I never loved you, said I never did  
That's what I believed, before I ever said it  
Never wanna see your face, or speak to you again  
Cause I can live without pain, I can handle my own sin

chorus: never lied to you, never lied to you, never lied  
to you  
until I lied to myself  
never lied to you, never lied to you, never lied to you  
until I lied to myself

Said there were no secrets, buried in the sand  
Standing in the canyon, I dug with my own two hands  
No needs to help me, alone I'm doin fine  
I can live without love, I can manage my own sweet  
time

Chorus: repeat

bridge: is there room in your heart to forgive me  
find it hard to forgive myself  
for the lies that I find within me  
must be harder for someone else  
all I can do is tell the truth I lied to you  
to hide the truth from myself
