Verse: lord your love is everlasting your promises true
I have never been forsaken when my trust is in you
the world around me is a river can sweep me away
when I find I'm missing heaven I remember I'm
anchored in

chorus: you only you only you I've come to put my trust
in
you only you only you
And you only you only you can turn my night to day
you only you only you

Chorus: repeat

Bridge; Your grace is just enough for me my only true
security
leaning on you leaning on you
your word in all it's healing power available at any hour
leaning on you leaning on you

Chorus: Repeat.
