Bunny gyal, on and on, on the microphone  
Grooving to the beat in the riddim section  
Feel the reggae music, feel vibration  
People get some ready for the hemp invasion

We've got the light, the light fireflies in sight  
We gonna push it up and feel alright  
The light, the light, fireflies in sight  
We gonna push it up and feel alright

Oooh, sweet seduction, comes to my direction (2x)

We'll hiding in the sky with thoughts of you  
Hold them unto glimpses as you come through  
Fallin endlessly in ecstasy  
Hold my hand now and come with me.

I call you now you what they want, meet outmost  
deserve

Thing the good vibration through your love you inspire  
Feel your caress in the cold of the night  
Hold you in my arms till the morning light.

We've got the light, the light fireflies in sight  
We gonna miss it up and feel alright  
The light, the light, fireflies in sight  
We gonna miss it up and feel alright

Oooh, sweet seduction, comes to my direction(2x)

You drive me crazy baby the way you groovin right  
Gone me want to know of what I have in sight  
Falling endlessly in ecstasy  
Hold my hand now and come with me.
