"This Generation Shall Not Pass"

Visit "[This Generation Shall Not Pass](#)" on MotoLyrics.com

A cryin' man prays for a peace in his land then raises
his arm and closes his hand
To strike the face of the woman he wed children the
number one prophet said
This generation shall not pass till all these things will be
fulfilled and done
This generation shall not pass before that great day
come

The man on the mountain said this last days would
bring
Failing up hearts the downfall of kings
Hurt waits in wars and phantoms will spread children
the number one prophet said
This generation shall not pass...

When the green leaves cover the big tree of life then
understand that summer is nigh

Beware of the world it's blind and it's deaf children the
number one prophet said
This generation shall not pass...
This generation shall not pass...
