Lady, lady
I think you lost your heart today
Maybe, maybe
it's very very far away

Lady,lady
as time when love is turning grey
Maybe,maybe
will make your life to a helpless prey

Those tears often is paradise
but rain might fall like tears from your eyes
they fall, and fall and freeze into ice
You'll cry like a child don't ignore all the advise

Lady, lady
I think you need a better start
Lady, lady
it's pretty hard to loose a heart

Lady, lady
as time when love is turning grey
Maybe,maybe
will make your life to a helpless prey

Those tears often is paradise
but rain might fall like tears from your eyes
they fall, and fall and freeze into ice
You'll cry like a child don't ignore all the advise
