### "The Boy That Santa Forgot"

Christmas eve and the trees are brightly shining  
Could a boy feel lonesome on this day  
Christmas lights bring much joy never pining  
but no joy seems to come into his way

He's the boy that old Santa had forgot  
His little wishing for a sled seems so so thin,  
No he's kind, help his mother with her lot  
wonder why Santa didn't come to him

Santa gives out the toys and children playing  
with a car and a doll also a sled  
Stands outside with hands that show he's praying  
for that sled which old Santa gave away

Santa left and the kids heard someone sighing  
We know why, it's the sled he hasn't got  
Give your sled to the boy that's upset crying  
He's the boy that old Santa forgot
