Ooh we know, yes we know now  
Ooh we know, yes we know now  
You're trying to keep it a secret (why must you try so)  
That you found a brand new lover  
You're hoping that you will believe it (why must you lie  
so)  
That you both love one another  
Everyone's watching you,  
Everyone's testing you  
Are you sure you're ready,  
Ready to marry  
Ooh we know, yes we know now  
Ooh we know, yes we know now  
You know that everyone gossips (a-do you really want  
to)  
You know that we all know  
You cannot keep it a secret (do you know, do you know  
it)  
So you're trying to be alone  
Everyone's watching you,  
Everyone's testing you  
Are you sure you're ready,  
Ready to marry  
Everyone's watching you,  
Everyone's testing you  
Are you sure you're ready,  
Ready to marry  
(Ooh we know) Yes we know now  
Ooh we know, yes we know now  
Ooh we know, yes we know now  
Ooh we know, yes we know now
