Can't tie me down, won't shut me up, you will not win
The purpose of this song's to say my life begins
I want to fly (I want to fly)
Reach out, be healed (reach out, be healed)
Don't want to die (don't want to die)
Like bugs on the windshield
Like bugs on the windshield
I'm driving down a dirt track road, I know nowhere
And up above the heavens spin, I wish me there
(I wish me there)
I want to fly (I want to fly)
Reach out, be healed (reach out, be healed)
Don't want to die (don't want to die)
Like bugs on the windshield

Like bugs on the windshield
Don't talk to me I'm seeing red
You're the last thing in my head
I want to fly (I want to fly)
Reach out, be healed (reach out, be healed)
Don't want to die (don't want to die)
It's time to steal (it's time to steal)
I want to fly (I want to fly)
Reach out, be healed (reach out, be healed)
Don't want to die (don't want to die)
Like bugs on the windshield
Like bugs on the windshield
Bugs on the windshield
Like bugs on the windshield
