Me and my friends,
Well we all agreed....
Its the saddest thing,
That we've ever seen
Do yourself a favor,
Be a saviour,
To yourself
Sleeping beauty
(chorus)
I hope you wake up soon
There's so much more i want from you
Why don't you call me when you do?
Sometimes i wish you could go self-first
There's no knights in shining armour
We're all cursed, for better or worse
Do yourself a favour

Be a saviour
To yourself
Sleeping beauty
Why don't you wake up soon?
There's so much more i want for you!
Why don't you call me when you do?
Feels like you've been gone
For a hundred years
Its like your here,
But your not here!
Sleeping beauty...
I want to wake up soon
Its been too long
We're missing you
We'll alwaysbe here when you do
I hope your gonna wake up..soon
