Ooh we know, yes we know now
Ooh we know, yes we know now

You're trying to keep it a secret (why must you try so)
That you found a brand new lover
You're hoping that you will believe it (why must you lie
so)
That you both love one another

Everyone's watching you,
Everyone's testing you
Are you sure you're ready,
Ready to marry

Ooh we know, yes we know now
Ooh we know, yes we know now

You know that everyone gossips (a-do you really want
to)
You know that we all know
You cannot keep it a secret (do you know, do you know
it)
So you're trying to be alone

Everyone's watching you,
Everyone's testing you
Are you sure you're ready,
Ready to marry

Everyone's watching you,
Everyone's testing you
Are you sure you're ready,
Ready to marry

(Ooh we know) Yes we know now
Ooh we know, yes we know now
Ooh we know, yes we know now
Ooh we know, yes we know now
