I've seen your face before
And I do remember where
I knew someone like you
And maybe you are her
But could you really be the one I knew
'cause by the way you act and what you say
And the things you do
You put the fun in funeral
You're the one in one-dimensional
Now step aside and watch me go
F
U
N
E
R
A
L
I know what's coming next
I've been through this before
No matter how I feel
You can make it worse I'm sure
But could it really be you're the one for me
When the way you act, the things you say
Just makes me feel...
That you put the fun in funeral
You're the one in one-dimensional
Now step aside and watch me go
F

L (Repeated through the chorus)
Now step aside and watch me go
Just step aside and watch me
Are you gonna make my funeral a happy one?
Are you the one? (Repeated throughout the fade out)
