Picture us on the road  
With me behind the wheel  
To drive us both away from here  
To new frontiers, well of we go  
Where we'll end up nobody knows  
You know what I know  
The new star shines brighter  
The new star shines bright  
The new star shines brighter  
And I can not compare  
And all the things I've been  
And all the things we've ever seen  
You go on without me, without me  
Oh  
Picture us in a boat  
Without no sails we would have to row  
Away from here  
So a new career is coming up  
Once you go, no way you'll stop  
You'll just leave me here  
The new star shines brighter  
The new star shines bright  
The new star shines brighter  
And I can not compare  
And all the things I've been  
And all the things we've ever seen  
You go on without me, without me  
Without me yeah!
