

## Her Personal Pain "Touch"

In my dreams  
hands are floating  
and I see your face  
and I'm not alone  
In my dreams  
I feel the force  
of the light  
and your love supreme  
In my dreams  
all I can do  
is drift through  
the white void of love  
And my spirit  
my spirit flies  
the vision tells me

love can conquer  
T o u c h !  
now, give it to me  
just a little touch - touch  
In my dreams  
your breath is in  
and your body  
filling me with fire  
In my dreams  
your presence stares [Note: I suspect they mean  
"presence".]  
and the furnace  
burning from within
