Oh my God is it true
Are you really gonna let him come home with you
Did you have sex yet was it any good
Did you make him wear a rubber like you said you
would
Girls talk
Girls talk too
Makes you kinda wonder what we say about you
Does his every sentence begin with "I"
Does he talk about his ex until it makes you cry
Is his wallet always empty when the waiter brings the
check
Is your house a fucking pigsty is your life a wreck
Girls talk
Girls talk too
Makes you kinda wonder what we say about you

Did you ask him about his felony
When he says he wants a beer does it really mean
three
Girls talk
Girls talk too
Makes you kinda wonder what we say about you
Does he show up once a week take a shower and get
sick
When you go to rent a movie does he always have to
pick
What happened to his slow sweet unattached screw
When he comes he has to hear the words "I love you"
Girls talk
Girls talk too
Makes you kinda wonder what we say about you
