Waking up can't remember my dream  
Landlord pounding on my door my God I hate scenes  
It's a bad way to start my day  
But it's too late to start it over  
Buying gas with quarters 'cause I'm low on cash  
My roommate broke in to my personal stash  
I just tore my dress my dress my room's a mess  
And my computer just crashed  
Zippity doo-dah day

Zippity doo-dah hey!  
I feel better now  
Months and months without getting laid  
The guy that I wanted turned out to be gay  
But his lover's cool and we're all friends  
And I'm right back at square one again  
Zippity doo-dah day  
Zippity doo-dah hey!  
I feel better now  
(repeat and fade)
