Those dancing shadows no longer hypnotize
I trace the light around your face
That garden where I go to when I close my eyes
Has ceased to be my quiet place
(chorus)
Right on time
Right on time
Your love arrives right on time
Wake up I can't sleep
Hot tears run down my cheek
So sad when I start to cry
My head is so busy I can't keep my thoughts still
Make love to me like a lullaby

(chorus)
Those dancing shadows no longer hypnotize
I trace a line around your face
That garden where I go to when I close my eyes
Has ceased to be my quiet place
Wake up I can't sleep
Hot tears run down my cheek
So sad when I start to cry
My head is so busy I can't keep my thoughts still
Make love to me like a lullaby.
(chorus)
