

Her Space Holiday "Sleeping Pills"

Hallelujah for sleeping pills
And amen for a good stiff drink
You know that I can't sleep
So why should I try
It's been this way for years
You think by know I'd know why

Hallelujah for long shot dreams
And amen for our perfect life
You know that I can't win
So why should I try
It's been this way for years
You think by know I'd know why

I so I drove by your home
To drop off a simple note
Saying if it's not too late
Can I call you up after your date?
