Beware, beware,  
There's danger in the air.  
Have no fear Bond is here,  
They'll never get the jewels.  
Bond is here have no fear.  
There goes a spy,  
There's evil in his eye.  
Have no fear Bond is here,  
The formula is safe  
With old Double O Seven.  
He's got a red-head in his arms.  
Though he's a lover,  
When you are in trouble  
Have no fear.  
Look who's here: James Bond.  
They've got us on the run  
With guns and knives,  
We're fighting for our lives.  
Have no fear Bond is here.  
He's gonna save the world.  
Bond is here have no fear...(fade)
