I'm out...

Once again, it's the super, pied piper  
Light your lighters for the future  
And I ain't talking about Mekhi Phifer  
Roll it if you got it people  
At last the Prequel  
And the eye ball  
Floral is back  
You'll find no equals  
Bang it in your loudest system  
Now who gunna diss him  
Usually it be the brokest niggas  
But this gunna fix em  
Let me get my 2 guns  
For rappers that can use help  
Now that Meth is back, you can tell me how my shoes  
felt  
Just like Shaq in them size 22's  
Except my games not a game  
And I don't play by any rules man  
Its time to build without a hardhat and goggles  
Even with a map I'm still a hard head to follow  
I thought you knew we do this everyday ok  
And I think marijuana is just nature's way of saying hi  
Only hydro buds, I get it crunk  
It's alright if that bitch don't smoke then get her drunk  
Now I pop a lot of shit, cause I can back it up (what)  
I got that fire, bitch, its hard to pass it up (what)  
While you'll was partying I been in the lab  
You want that dope, give me an hour  
Plus a pen and a pad

(Streetlife)

Aiiyo Meth what they look like (look like)  
3rd LP nigga better be tight (be tight)  
Don't forget where you come from, the hood life (hood  
life)  
Let them know from the door we ain't the shook type  
(shook type)

(Method Man)

I got that shit that keep your head bobbin

Cause your neck know

Meth yo, I'm trying to get that more dollars then crep  
flow for certain

Before I put the paint, I put the work in

And each person I catch slipping gunna need nursing

Got these wanna-be gangstas, sleeping with they lights  
on

Shook up by the python, everybody got they eyes on

Not only is the streets watching, the streets is talking

And word has it that these rappers don't come around  
at all

Take it from the most stepped on, your wearing open  
toe sandals

And I'm looking for some new toes to step on

And one to build a rep on, you all got me fucked up

My crew stick bitches like you, for acting stuck up

Methods like that yall, when I return you know the good  
herb is back y'all

Ladies desiring without further adieu

let's keep it wu, and fuck keeping it real y'all

Just keep it you
