Richard Bryant  
Look there's love in plain sight  
Walkin this way, shiny bright  
And moaning like a mad dog  
Creeping like a Maine fog  
And you and I are in the way  
You better watch your heart today because  
There's love in plain sight  
Closing in on us tonight  
We could turn and run away  
And live to love another day  
Or we could chance it here and now  
Pull it's tail and make it howl  
It's song of love in the purple garden  
Of the heart's desire, the heart's design  
I can't get enough of everything about you  
That makes me feel so good, so true, so fine  
Check out love in plain sight  
It's gonna do us wrong if it doesn't do us right  
But don't you listen with your head  
Listen with your heart instead  
And you might hear a mad dog moan tonight  
Love's in plain sight
