(Marcus Hummon - Tommy Sims)

Love breathes when you're out of breath  
Love sits by the bedside when you're near to death  
And love still feels it when the feeling's gone  
Love lives on and on.

Chorus:

Hey, hey, hey, love is the right place  
Took me a while, took me a while to get it straight now I  
want to stay  
Every day of my life I realize that I'm in the right place  
Love is the right place.

Love it moves in mysterious ways  
Like mist on the river at the break of day  
So pull open your shutters sing a morning song  
Love moves on and on.

Chorus:

Hey, hey, hey, love is the right place  
Took me a while, took me a while to get it straight now I  
want to stay  
Every day of my life I realize that I'm in the right place  
Love is the right place.

--- Instrumental ---

Where you are, near or far sun and moon, moon and  
stars  
I know, I know.

Chorus:

Hey, hey, hey, love is the right place  
Took me a while, took me a while to get it straight now I  
want to stay  
Every day of my life I realize that I'm in the right place  
Love is the right place...
