To your right
A spotlight
Making you look pretty
To your left
What was left
Of an afternoon party

Did you see
That movie
Where the extras pointed at the camera and shouted
I know it
Cause I saw it
And I even thought something clever about it

Square your shoulders
Untie your hair
Give me pictures
The rest I don't care

What's the world
To a bird
What is it to you and me
Frankly
My lovely
Not that big a story

Square your shoulders
Untie your hair
Give me pictures
The rest I don't care
