...Which reminds me of us
Smoking through the foreplay
This one is precious
I lit it on the runway

On a sunny sunny cold cold day
A sunny sunny cold cold day
A sunny sunny cold cold day

On a sunny sunny cold cold day
A sunny sunny cold cold day
You came my way

Two hundred yards ahead
The orange men freaked out
Whatever I remembered you'd said
Was louder than a stranger's shout

Out of the runway bus
The rabbits saw me stray
This one is dangerous
I lit it on the runway
