If my car won't stop  
Until the morning comes  
With a tankful of gas  
With the radio on  
Beautiful music: Velvet Underground  
Such a nice drive with The Velvet Underground  
Such a nice drive looking at the countryside

With the "golden sky above"  
Fighting with the farmer's wife  
My hands full of mud and blood  
I think she deserves it for the harm she did  
To my brothers the pigs & my sister the cows  
What a hard fight with the farmer's wife  
But the bitch she deserves it

And now, when you look at me baby  
Will you see me as a vegetarian hero?  
Will you remember, say & spell my name  
With your high school friends  
Smoking weed  
On the staircase overthere
