I don't need her, don't need that kind of heartaches &
pain
She's gonna have to see things that can never be the
same way again
I won't miss her, well, maybe I'll miss her once in a
while
She thinks I'm gonna die, now that she's said goodbye
But she's so wrong, here eyes gonna smile

CHORUS:

Baby baby, don't you believe it?
When it comes to your lovin', I can take it or leave it
Baby baby, don't you believe it?
When it comes to your lovin', I can take it or leave it
I can take or leave your lovin'
I can take or leave your lovin'
(scat singing)

I'm not sorry; I still think we're better apart
She says she's gonna see a day when there's gonna be
a change of heart

(chorus)

(scat singing, fading out)
