(Woodley)

Sing to me bring to me  
Every sweet thing to me, sunshine  
Run away, laugh and play  
Talk away hours with me  
Toy balloons, pretty tunes  
Sun and moon shine through my window  
Magic sound, turn around  
Spinning down onto me  
Oh, little miss sorrow  
Child of tomorrow  
You follow me  
Oh little miss sorrow  
Child of tomorrow  
You follow me  
Hmmm...  
Red color, blue color  
You gave a new color to me  
Dapple and purple and almost a deep shade of blue  
Don't you cry, breathe a sigh  
Look and I'm just round your corner  
Wait and then count to ten  
Be my friend, I'll be yours, too  
Oh. little miss sorrow  
Child of tomorrow  
You follow me  
Oh little miss sorrow  
Child of tomorrow  
You follow me  
Oh little miss sorrow  
Child of tomorrow  
You follow me  
Hmm, Hmm, Hmm...
