Sorcerers sing forbidden songs with a single voice  
Invoking forbidden spirits, celebrating the pentagram  
Slender angels are armed to defend the giant fortress  
The true light is also in the dark like the dark is in the  
light.

Black angels fly through... sky like free eagles  
Enslaving the souls that... die on anathema  
At this day that sunset will be in sunrise  
Time stops and goes back, sunrise will be in the west!  
With the brothers we toast the conquest victory!

With the enemies remnants we share the toast!  
Our victory we celebrate... drinking together his own  
blood  
Saluting the great spirits co's... just the stronger will  
survive

Devastating winds of apocalipse... apocalipse...  
Devastating winds of apocalipse... apocalipse...  
Sunrise at sunset... the scenery to the day of  
abduction...  
Sunrise at sunset... the ascension of the rebellious on  
light...
