

## Hermetic Vastness "Empire Of Metal"

Visit "[Empire Of Metal](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Hey warriors  
Welcome to the world of... metal...  
Our brothers fell in glory  
Make us immortals...  
Will be remembered in blood for the future  
generation...  
And for us will be celebration...  
In our spirits forever...  
Forever...  
The empire of metal  
The empire of metal  
The empire of metal  
Our warrior's clã£ in, the silence of the night  
Will evoke the power of our gods cause  
Will fight to the conquest of the universe  
Future in crystal ball is construction of the empire...  
Empire... empire... empire...  
The defeat to us is just a legend  
And isn't written in books of our ancestors  
We have the key to evolution race

Lucified force that gives us pleasure to play the steel  
The steel... the steel... the steel...  
Empire of metal the touch to the swords is the contact  
Empire of metal the touch of the swords is the contact  
Come on to victory, the black sword order in the history  
The winds flow the ritual flames to the ancestors  
Batting the enemies blood and clinching the black  
sword  
We declare the freedom and raise the flag of the  
empire...  
Empire... empire... empire...  
Empire of metal the touch of the sword is the contact  
Empire of metal the touch of the sword is the contact
