Your pride paint the sky with a bitter emptiness  
Enter my cold world of desire  
Close the embrace with my heart  
Whispering the infinite  
My children spread my shadow  
When they awake  
Look into my powerful eyes  
It hurts you  
You need me like I almost need you  
Turn off the light and I grow more  
I made your beauty with my own hands  
My voice only guides them to you  
So you master of reborn  
Forgot I am I since the beginning of times  
I made you to walk with me  
In the corner of the minds  
Together we could kill the king  
And we could be one forever  
My divided  
Look at yourself and see me  
Flying through your wishes and desires  
Crying too when they awake  
And I never sleep...
