

Hero "Aphotic"

Born again this place is new
An unknown friend beyond the skew
The power in me
The powerless creed

Just let me be (let me be)
The face beneath the masquerade

In my darkness
I will fade
To take off the mask that you have made

Security through obscurity
The city under my wing

The city that falls to bring
Injustice through conquering
A jack amongst a king
An aphotic dream

An ever lasting seam

I am
The face inside

The face inside the mask you see

The face of fear, the face that screams in me, the face
that you seek.
