Relax / forget the reasons why you're afraid
let it go / it's the only way to rest your head
in this bed you made
now look what i've done to you
i am a monster
i scare myself sometimes
i'm hanging onto a fading light inside
tonight it's alright
but we're broken and bleeding fast

it feels good for awhile / you smile
but it's guaranteed not to last
now look what i've done to you
isn't this fun for you?
and still i pray for the day i'll understand
why only blood can wash the blood off of my hands
