Dreams for lovers (x4)

Dreams for lovers
Visualise what it is that they do
You'll discover
All those dreams that you had have
Come true
Try to realise
When you close your eyes
Those dreams are for lovers
Not all the others

Lovers...
Oh, they're acting their part
They're hiding their hearts
Lovers...
Have their dreams
So it seems

When your lover
Holds a smile for a while just for you
You'll discover
All those dreams that you had have
Come true
Look into their eyes
And try to visualise
Those dreams of young lovers
Not all the others

Lovers...
Oh, they're acting their part
They're hiding their hearts

Lovers...
Have the time
For their lives

Lovers...
Oh, they're exactly the same
They walk in the rain

Lovers...
Have their dreams
So it seems, so it seems

Dreams for lovers
(dreams for lovers) (x4)

Lovers...
Oh, they're exactly the same
They walk in the rain
Lovers...
Have their dreams
So it seems

Lovers...
Oh, they're acting their part
They're hiding their hearts
Lovers...
Have their dreams
So it seems

Dreams for lovers
(dreams for lovers) (x3)
