(darren costin/nick feldman)

Our favorite song was on the radio
I thought I'd call you just to say hello,
Hello
It didn't really matter
You weren't there

The thoughts I'd had for such a fine
Romance
In all my dreams I always get the chance
I wish it were forever
Do you care

Friends keep saying that I'm wasting
Time
I'm not the type that listens
This heart of mine gives me my vision

My heart beats
To the beat of love
My heart beats
Baby you know it should
My heart beats
To the beat of love for you, for you
My heart beats
To the beat of love
My heart beats
And baby you know it should
My heart beats
To the beat of love for you

All of my thoughts I try to sublimate
It's only you that makes me hesitate
It didn't really matter
At the start

I get so cold inside when I'm alone
But then I see you in the world of my
Own, alone
I wish it were forever

From my heart

Friends keep saying that I'm wasting
Time
I'm not the type that listens
This heart of mine gives me my vision

My heart beats
To the beat of love
My heart beats
Baby you know it should
My heart beats
To the beat of love for you, for you
My heart beats
To the beat of love
My heart beats
And baby you know it should
My heart beats
To the beat of love for you, for you

My heart beats
To the
Beat of love
My heart beats
To the
Beat of love
Beat of love
(solo)
Beat of love
Beat of love
Beat of love

(repeat chorus)

My heart beats loud
My heart beats loud
My heart beats loud
For you, for you, for you, beat of love
