You're a mess  
Like the rest  
You're just out of control  
And you hope  
For the best  
But you already know  
There's a lesson to learn  
But I bet you ignore it all  
I confess that I left you  
To be on your own  
I'm not holding my breath  
Cos you'll just let me drown  
In your ocean of lies  
While you just keep moving on.

But it won't be long  
Until all is lost  
And you can't believe  
Where the time has gone  
It's too late (It's too late)  
Its escaped before your eyes

I've got you standing on the edge now  
Trying not to look down  
Wishing you could back out  
Hoping that I don't see  
How much you wanna break down  
You're nothing but a fake now  
And everybody knows  
You're keeping the lie alive tonight  
(But now it's time to put an end to all you are)  
I will never let you get away with this again

You're a wreck  
And I'm guessing  
You've never been told  
Cos you're falling apart  
But your heads in the clouds  
And the view from the sky's  
So good that you won't look down  
If you think for a second

That you're not alone  
Then I think you're forgetting  
I already know  
You've been trying to hide  
To escape from being found

But it won't be long  
Until all is lost  
And you can't believe  
Where the time has gone  
It's too late (It's too late)  
Its escaped before your eyes

I've got you standing on the edge now  
Trying not to look down  
Wishing you could back out  
Hoping that I don't see  
How much you wanna break down  
You're nothing but a fake now  
And everybody knows  
You're keeping the lie alive tonight  
(But now it's time to put an end to all you are)  
I will never let you get away with this again
