You can't get any more sunshine
I can't get over how it rains down
Oh no no no...
You can't get any more sunshine
You can't get any more broken down
Oh no no no...

Is the car parked downtown
Leave it while the sun beats down
We can walk and walk and walk
Walk and walk and walk

You can't let any more skin show
You can't let any thing in your eyes show
No no no...
We can't get any more sunshine
Barefoot while the heat rains down
Oh no no no...

There's nothing I forgot
I left that paper heart
Where it belonged
Who it belonged to, I never knew
I never never knew
Paper burns and my heart melts
When I tear at you

Sun drops down now
Down now now now now
