my secret wish
in this sacred place
is to relinquish needs
the great constant
is perpetual change

so when we leave
as we know we will,
some of us remains,
consecrated and unchanged

circles in stars
they bind us now,
we're pretty animals

colors around
are bleed of love,
we're hopefully animals
kiss me now
so we can feel alive
we're conscious animals
circles in stars
they bind us now,
we're sacred animals

from blood we came,
to ask we return again
these carbon hearts,
and terrestrial hopes
from our first goodbye
to the last hello,
pray we carve our paths
from god's sacrosanct... yeah

circles in stars
they bind us now,
we're pretty animals
colors around are bleed of love,
we're hopeful animals
kiss me now so we can feel alive,
we're conscious animals

circles in stars
they bind us now...
we're sacred animals

the love we crave,
that binds, bends
but can never change
feeds the faith in faith
that i search for in everything...
